PRECISION CUTTING & DOWEL DRILLING

## MORSØ - NM

### Notch Cutting Machine

Foot-operated

*Dust free operation - No compressor needed*

- ▼ Dust free operation
- ▼ No compressor needed
- ▼ Exact cut
- ▼ No noise

**MORSØ-NM is a foot-operated notch cutting machine for cutting window bars, mullions, and cabinet front frames requiring haunch joints.**

It cuts all kinds of wood, plastic, MDF and plywood.

MORSØ-NM leaves the cut surface of the wood perfectly smooth and accurate, requiring no further preparation before joining.

The horizontal movement of the knife block is stepwise adjustable.

The fences, left and right, with the adjustable stops ensure correct work. The special lever system of the machine ensures a very easy operation. Twin return springs automatically bring the knives back to starting position.

### TECHNICAL DATA

SUBJECT	SPECIFICATION
Nose width NMS	6 - 12 mm ( ¼" - ½")
Nose width NML	12 - 20 mm (½" - ¾")
Cutting width max.	115 mm (4½")
Cutting height max	85 mm (3¼")
Fences left and right	800 mm (31")
Extension tables left and right	478 mm (18¾")
Net weight	50 kilos (310 lbs)
US PATENT NOS.:	US 6,675,686 BZ
EUROPEAN NO.:	00610130.7-2316

**To compare MORSØ-NM with a routing machine the following points must be considered:**

- a clean and constantly accurate cut will be produced with MORSØ-NM. Therefore no further preparation needed before joining
- the MORSØ-NM produces no dust and therefore requires no extraction
- the MORSØ-NM require less than 15 minutes to change the cutting blades, to the set-up, and to the positioning of the stops
- as the blades wear the 45 degree angle remains unchanged, ensuring consistently accurate joints
- the MORSØ-NM cuts plastic, all kinds of wood including MDF
- cutting the corner of the crossrails can also be made with the MORSØ-NM

### MORSØ-NM is delivered with:

- safety guard
- 2 sliding longitudinal stops
- fences on both the right and the left side of the machine
- 1 nose knife (size per request)
- 1 pair of side knives.
- one size chip breaker
- one size end piece for centerstop
- adjustable bead stops

### ACCESSORIES

- digital control system
- extra length of fence system
- any number of additional flip stops
- second interchangeable head for the machine to cover all range of nose knives from 6 mm (¼") to 20 mm (¾")

### MODELS

(all models can be equipped with Digital Control System)
