PRECISION CUTTING & DOWEL DRILLING

MORSØ - NFX

Notch Cutting Machine

Foot-operated

Dust free operation - no compressor needed

- ▼ Dust free operation
- ▼ No compressor needed
- ▼ Exact cut
- ▼ No noise

The **MORSØ-NFX** is a patented foot-operated notch cutting machine for cutting window bars, mullions, and cabinet front frames requiring haunch joints.

It cuts all kinds of wood, plastic, MDF and plywood.

MORSØ-NFX leaves the cut surface of the wood perfectly smooth and accurate, requiring no further preparation before joining.

The horizontal movement of the knife block is stepwise adjustable. The fences, left and right, with the adjustable stops ensure correct work.

The special lever system of the machine ensures a very easy operation. Twin return springs automatically bring the knives back to starting position.

NOTE - maximum working width 205 mm / 8"

TECHNICAL DATA

SUBJECT	SPECIFICATION
Nose width (Morsø-NFXS)	6 - 20 mm (¼ - ¾)
Nose width (Morsø-NFXL)	12 - 26 mm (½ - 1. 1/8)
Cutting width maximum	205 mm (8")
Cutting height maximum	160 mm (6")
Fences left and right	1500 mm (60")
Extension tables left and right	1000 mm (40")
Net weight	100 kilos
US PATENT NOS.:	US 6,675,686 BZ - US 6,941,848 BZ
EUROPEAN NO.:	00610130.7-2316

To compare MORSØ-NFX with a routing machine, the following points must be considered:

- a cleaner and more constantly accurate cut will be produced with the MORSØ-NFX, therefore no further preparation needed before joining
 - the MORSØ-NFX produces no dust and therefore requires no extraction
 - the MORSØ - NFX requires less than 15 minutes to change the cutting blades, to the set-up, and to the positioning of the stops
 - as the blades wear, the 45° angle remains unchanged, ensuring consistently accurate joints
 - cutting the corner of the cross rails can also be made with the MORSØ-NFX
-

MORSØ-NFX is delivered with: ACCESSORIES

- | | |
|--|--|
| • safety guard | • digital control system |
| • waste chute | • extra length of fence system |
| • 6 sliding longitudinal stops (flip stops) | • extra cast iron extension table and supporting leg |
| • fences right and left side | • any number of additional flip stops |
| • one size nose knife | • second interchangeable head for the machine to cover all range of nose knives from 6 mm (¼") to 26 mm (1. 1/8") |
| • one size chip breaker | • special interchangeable second head for 4 mm nose knife only |
| • one size end piece for center stop | |
| • adjustable center stop for cutting cross rails | |
| • adjustable bead stops | |
