PRECISION CUTTING & DOWEL DRILLING

## MORSØ - ND

### Double Headed Notch Cutting Machine

Automatic dual hand operated cutting machine  
*Dust free operation*

▼ Noise level below 70 db

▼ Dust free operation

▼ Exact cut

**MORSØ-ND** an electric/pneumatic guillotine for cutting window bars, mullions, and cabinet front frames requiring haunch joints.

It cuts all kinds of wood, plastic, MDF and plywood.

The MORSØ-ND's pneumatic cutting action is activated by the operation of a dual-hand control, ensuring total safety.

With MORSØ-ND you can constantly achieve the clean, smooth cuts. When both buttons are

activated, each side of the profile is cut simultaneously. The profile requires no further preparation before joining.

The sliding stops on the right hand fence are pneumatically operated. This ensures exact work.

Change over time from one profile to another is less than 15 minutes.

MORSØ-ND is CE approved.

### TECHNICAL DATA

SUBJECT	SPECIFICATION
Nose width NDS	6 - 20 mm (1/4" - 3/4")
Nose width NDL	12-26 mm (1/2" - 1. 1/8")
Cutting width maximum	60 mm (2 1/4" )
Cutting height maximum	100 mm (4")
Extension tables left and right	1500 mm (60")
Fences left and right	2150 mm (80")
Air pressure	6-8 bar
Air consumption per cycle	variable from 28 - 48 litres
Net weight	301 kilos

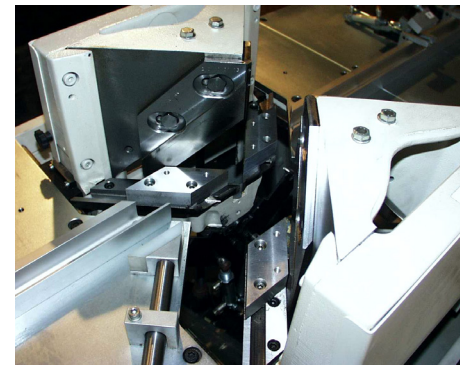

**To compare MORSØ-ND with a routing machine, the following points must be considered:**

- a cleaner and more constantly accurate cut will be produced with MORSØ-ND
- the MORSØ-ND cuts both sides simultaneously – this operation is more than twice as quick
- the cross rails can be cut
- the MORSØ-ND produces no dust and therefore requires no extraction
- the MORSØ-ND requires less than 15 minutes to change the cutting blades, to the set-up, and to the positioning of the stops
- as the blades wear, the 45° angle remains unchanged, ensuring consistently accurate joints.

The MORSØ-ND will cut plastic, all kinds of wood including MDF, and hard wood such as mahogany, oak, etc.

### MORSØ-ND is delivered with:

- safety guard
- waste chute
- sliding longitudinal stops
- fences on both the right and left side of the machine
- 2 nose knives (size per request)
- 2 pairs of side knives.
- chipbreakers
- adjustable bead stops
- molding clamps

### MODELS

(all models can be equipped with Digital Control System)
